Product highlights

Orthodontic, symmetrical collapsible teat

Flat, drop-shaped symmetrical teats respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends up upside-down in the mouth.

User-friendly silicone teats

Silicone is taste and odor-free so it's more likely to be accepted by your baby.

Snap-on protective cap

To keep sterilized teats hygienic.

Security ring handle

For easy removal of the pacifier at any time.

Curved ventilated shield

Extra air holes in the shield allow more air to flow behind and around the soother for greater comfort, ideal for baby's sensitive skin as it reduces saliva build-up and the risk of skin irritation.

Issue date 2008-09-08

Version: 4.2.1
